

ADDENDUM # 1

RFP #08-2020-1

Due September 22, 2020 @ 5:00 pm

TO: All Interested Parties responding to RFP # 08-2020-1

FROM: Diane Drussell, Assistant Director

DATE: September 8, 2020

Please note the following questions and answers. (**Note:** This Addendum #1 is an exact duplicate for Addendum #1, RFP #08-2020-2 because the questions were posed by the same person for projects running simultaneously.)

1. Do you have a copy of the Geotech report for this area that can be provided?

Answer: We (the Copperas Cove EDC) do not have a geotech report for this property.

2. Are there approved traffic control plans and do we need to include traffic control costs in our number to you?

Answer: There are no traffic control plans so you will need to include traffic control costs in your numbers. Per Sheet 2 of 12 on the plans, as stated in the TxDOT Notes, #4 – *“Traffic controls must conform to TxDOT requirements and recommendation and should meet or exceed the “Texas Manual on Uniform Traffic Control Devices”. In addition, lane closures will only be allowed between 9:00 am and 4:00 pm, Monday thru Friday. A 48 hour notification prior to set up is required.*

For more information and clarification regarding TxDOT’s standards and expectations, please refer to Sheet 2 of 12 under TxDOT Notes.

3. Confirming all bids must be hand delivered on the 22nd and not emailed bids will be accepted.

Answer: this is NOT correct. Hand delivered, mailed and emailed bids will be accepted as long as they are not received after 5:00 pm on the 22nd of September, 2020. Bids may be emailed to Diane @ ddrussell@coveedc.com. If proposals are emailed, it is your responsibility to ensure they were received by recipient.
